 @github.com/ishsanju   @sanjay-gm-81b152227

TECHNICAL SKILLS

- ❖ **platforms:** AWS cloud (EC2), GitHub
- ❖ **programming:** core Java
- ❖ **Front-End:** HTML, CSS, JavaScript
- ❖ **Frameworks:** Spring Boot, Hibernate (beginner)
- ❖ **Databases**: MySQL.
- ❖ **Concepts**: OOP, Collections, Exception Handling.
- ❖ **Tools**: GitHub, Eclipse, IntelliJ IDEA

EDUCATION

- ❖ Bca Degree |Rambhapuri collage | kuvempu university, shimoga   *CGPA*: **7***.88*| *(2024)*
- ❖ XII | paper town indp collage, shimoga   *78.8%| 2021*

EXPERIENCE

- ❖ **internship | provider (test-savvy)**   *final year*

    Using AWS VMs, designed and implemented a Java-based backend system to support workflows
- ❖ **certificate of DevOps course completion [**DevOps Shack**]**   05-feb-2025
- ❖ **Apollo pharmacy [worked]**
    I used to manage online order received, dispatch management

ACADEMIC PROJECTS

- ❖ **Employee Management System (Java + Mysql)**

Built a Java application to handle employee records with CRUD operations.
Used JDBC for database connectivity and implemented exception handling.

- ❖ **Microservices – web-based application**

Designed and implemented a microservices architecture on AWS, utilizing Jenkins with a Multibranch Webhook Trigger for automated CI/CD pipelines. Create an IAM user with roles and configure it for AWS CLI. We create an EKS cluster, a service account, roles and permissions, and a secret token for deployment in a Kubernetes cluster

ACHIEVEMENTS / HOBBIES

South-zone-nationals *KHO-KHO*   *2022-2023*

I am good at communication, teamwork, problem-solving skills, and attention to detail.
